Company Profile

- **Products: Polyester Polyols, Unsaturated Resins, Polyurethane Pellets, Acid-Resistant Coatings, Chemical Tanks.**
 - **Founded: 1965**
 - **Number of Employees: 135**
 - **Capital: 610.56 Million**
 - **Consolidated Revenue for 2021: 1.15 Billion**
- 

Main Products

- **Polyester Polyol**
- **Unsaturated Polyester Resin**
- **TPU Resin**

Polyester Polyol (PU)

- **Polyester polyols are widely used throughout the polyurethane (PU) resin market. The typical applications are:**
 - **PU Synthetic Leather**
 - **PU Foam**
 - **PU Adhesive**
 - **Thermoplastic Polyurethane (T.P.U.) Pellets**
 - **PU Prepolymer**

Unsaturated Polyester Resin (UP)

Unsaturated Polyester Resin is widely used in injection molded products and laminated industrial products as listed below:

- **Artificial Marble**
- **Injection Molded Imitation Stone Crafts**
- **Plywood Processing (Imitation Wood Products)**
- **Buttons**
- **Shipbuilding Applications**
- **FRP Chemical Tanks**

TPU Pellets

- **Environmental-friendly materials are used to replace plastic products, which are widely used in the following:**
 - **Shoe Materials**
 - **Textiles**
 - **Adhesives**
 - **Car Materials**
